**12 PhD and 1 Post-Doc positions (f/m/d – 100% TV-L E13) in the
Interdisciplinary DFG Research Training Group (Graduiertenkolleg) 2739/1
on Information Systems, Psychology, Computer Science, Management, Economics
"KD²School: Designing Adaptive Systems for Economic Decision-Making"**

Research Program

The KD²School focuses on designing adaptive systems for supporting economic decision-making of individuals, teams, and groups in work and private life. We train the next generation of scholars at the interdisciplinary intersection of information systems, psychology, computer science, management, and economics. We perform interdisciplinary research to design adaptive systems for economic decision-making with a special focus on biosignals captured by a variety of sensors. From a methodological point of view, we focus on experimental research.

We Offer

At Karlsruhe Institute of Technology (KIT), University of Bremen and University of Stuttgart up to 12 doctoral positions and 1 post-doctoral position are available, ideally starting **January 1st, 2025**, each running for 36 months.

With four cutting-edge experimental research laboratories [KD²Lab](#), [CSLab](#), [fMRI-Lab](#), DeclS-Lab, KD²School offers access to excellent facilities, attractive workplaces, diverse and responsible tasks, a wide scope of advanced training options, and flexible working time models.

All scholars are supervised by an interdisciplinary team of at least two highly qualified professors providing their complementary expertise, infrastructure, and networks. Scholars are encouraged to grow their skills and networks by visiting partner and other world-renowned institutions for extended research stays.

You Provide

Successful candidates should have completed their master studies (or complete them very soon) in the fields of computer science, economics, information systems, management, psychology, or related fields. Opportunities for qualification scholarships for candidates with other related backgrounds and/or study degrees are also available.

Application

We aim to balance the diversity (f/m/d) of employees. We kindly encourage female applicants to apply for this job. Recognized severely disabled persons will be preferred if they are equally qualified.

Further information about the team, projects, and recruiting process of KD²School can be found at www.kd2school.info.

Please follow the instructions on this website on how to submit your application (including your professional CV, certificates, and research interests) until **June 20th 2024**. An in-person assessment event will take place **July 3rd** in Karlsruhe.
